

Deflecto designs barriers that provide protection between booths and have a look and feel that keeps the aesthetic of the restaurant in the forefront.

BOOTH BARRIERS

Helping restaurant owners increase capacity and invite guests safely back to the dining experience is our goal. Our design engineers are available to create a custom design for the perfect fit as well as offering industry standard sizes.

- Generously-sized panel allows clear visibility that won't impede social interaction
- Arched panels accentuate many types of decor
- Available in clear acrylic for clarity and durability
- Steel frame in powder gray or matte black finish
- Stock items available or request a quote for custom designs
- Mounting screws not included
